

FAASTeam presents:

Approach Plate Lunch

Every instrument approach chart is packed with information that you need to know to fly the approach safely. Our recurring Approach Plate Lunches take an intensive look at two approach procedures. The lunch events are open to all instrument-rated pilots and instrument students. On Saturday, May 28 presenter Reid Raisanen will analyze two Northern California approaches, with a focus on what is unique or challenging about each approach along with potential gotchas. Every Bay Area instrument pilot will find this seminar valuable.

Grab a bag lunch, stop at In-N-Out, or just listen and enjoy the discussion. We hope you can join us!

Directions: Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
